**AB 75** requires state agencies and large state facilities to recycle

### Contact Information

800 N. State College Blvd. T1475  
Fullerton, CA 92834  
Ph: 657-278-7233  
<http://ehis.fullerton.edu/safety@fullerton.edu>

### Why Recycle?

The results are clear, recycling provides cleaner air and water, less pollution, more forested land and open space, and reduced greenhouse gases. Remember, recycling starts with you!

- ✦ The more we recycle, the less trash winds up in our landfills
- ✦ Landfills are expensive and space is diminishing
- ✦ Toxic materials need to be separated so they don't leach into our groundwater
- ✦ As energy costs continue to rise and natural resources become depleted, it is more important than ever to make environment-friendly choices to protect our earth for current and future generations

### How You Can Help:

CSUF maintains an ongoing campus-wide recycling program, and most of our recycling on campus is handled through the normal trash pick-up.

- ✦ **Reduce**, or cutback, on your consumption of resources such as water, energy and solid waste.
- ✦ **Reuse** products as much as possible to prolong their use life. This way you can provide additional uses for the product(s) and help eliminate the need for others to be created.
- ✦ **Recycle** to preserve natural resources and help out the environment by preventing valuable and hazardous materials from ending up in landfills.
